Volume 15, Issue 8 — August 2021

Research Articles

1.

Preparation and Mechanism Study of a Novel, Environmentally Friendly Seed Coating Agent for Maize

Defang Zeng, Zhao Fan, Wenjin Wang

Keywords: seed coating agent, maize, polysaccharide polymer, antibiosis, insect repellent, enzyme activation, chlorophyll

2.

Vegetative Propagation of Tecoma stans: Influence of Shoot Position, Cutting Types, and Auxin Treatments

Bhupendra Singh, JMS Rawat

Keywords: Tecoma stans, vegetative propagation, rooting ability, auxin treatments, shoot cuttings

3.

Photodynamic Therapy Techniques in Cancer Treatment: Advances and Challenges

Mohammad Reza Saboktakin, Roya Mahdavi Tabatabaei

Keywords: Photodynamic therapy, Cancer treatment, Drug delivery systems, Photosensitizers, Nanoparticles

4.

Combining the Evidences of Temporal and Spectral Enhancement Techniques for Improving the Performance of Indian Language

Identification System in the Presence of Time-Varying Noises

Phani Kumar Polasi, K Sri Rama Krishna

Keywords: Language Identification, Speech Enhancement, Gaussian Mixture Models, Temporal Processing, Spectral Subtraction

5.

Indirect Biomimetic Restorations in Posterior Teeth: A Clinical Study of Main Principles - Case Series

Angela Gusiyska

Keywords: biomimetic restorations, posterior teeth, ceramic materials, dental esthetics, cavity design

6.

Differential roles of calpains and the antifibrotic effect of calpeptin in postburn hypertrophic scar formation

Cheong Hoon Seo, Hui Song Cui, June-Bum Kim

7.

Anti-scarring activity of a Gardos channel inhibitor in severe burn injuries

Hui Song Cui, Ji Young Lee, Cheong Hoon Seo, June-Bum Kim

8.

A calpain inhibitor PD150606 reduces scar formation after deep thermal skin injuries

Cheong Hoon Seo, Hui Song Cui, June-Bum Kim
